INTRODUCTION

Our team mission is to convey Love and Health to our Final Users, Partners and Society by our Excellent Solutions.

After nearly 20 years of unremitting efforts, it has grown into a leading enterprise in the Aluminum Foil Packagings manufacturing sector across the Asia-Pacific region.

Endowed with internationally recognized product R&D capabilities and Globalization Strategy. SE has established production bases in Shanghai of China, USA, UK, Germany, UAE and Morocco. Covering a total area of over 100,000 square meters. With over 60 Full Automatic Equipment and 500 Moulds, 100 Engineers Team, 20 Designers with Rich Experience of 4,000 sets Moulds, Total annual production capacity more than 20,000 tons for Aluminum Foil Products.

SE places great emphasis not only on the quality and functionality of its products, but also on product design and end-user experience. Its products cater to a diverse range of application scenarios, spanning categories such as household items, kitchenware, outdoor supplies and commercial catering, and are widely used in households, chain restaurants, outdoor gatherings and food factories. Upholding the spirit of innovation, the Group is currently developing customized solutions specifically for prepared meals.

SILVERENGINEER GROUP

SilverEngineer Group founded in 2010, is an innovative platform focusing on Global Disposable or Reusable Aluminum Foil Packagings Overall Solutions. It remains committed to the innovation of food packaging made from Eco-Friendly, Green Sustainable cycle materials.

BUSINESS

INTRODUCTION TO THE GROUP'S BUSINESS

The SilverEngineer Group has under its umbrella businesses of multiple brands, including SilverEngineer, SEPACK, Botong (Foil Link), King Roaster, CrispBake, iChef, Cook-n-Carry, Aluxtray, Bake-Well, and Ready4Eat.

1. SILVERENGINEER

SilverEngineer focuses on the R&D and manufacturing of disposable aluminum foil container production lines and the customization of high-precision molds. It provides customers with optimal factory-building solutions and equipment tailored to their specific needs.

2. SEPACK

The SEPACK brand specializes in the customized production of aluminum foil packaging containers. It supports the OEM customization, ODM R&D, and processing of disposable aluminum foil packaging containers, while offering technical consultation and R&D support for the development and iteration of more innovative new products.

3. FOILTO

The FOILTO brand is dedicated to providing customers with integrated bulk procurement services for raw materials. It efficiently supplies various types of aluminum raw materials to customers, ensuring product quality and on-time delivery.

VALUE-ADDED SERVICES

By establishing the SilverEngineer Business School, the Group offers customers a one-stop hassle-free service system, including a project consultation and guidance system, a talent training system, and a shared factory joint-operation partnership program. It provides full-life-cycle services for cooperative entities, empowering investors in the global aluminum foil packaging industry to achieve comprehensive transformation and upgrading of their competitiveness in areas such as sales capability, product strength, brand influence, operational efficiency, and organizational capacity. The Group is committed to becoming the preferred service platform for total solutions in the aluminum foil packaging industry.

HISTORY

2008

In 2008, founder Franky entered the industry and participated in over 30 overseas project investment consulting, installation and delivery, as well as production and operation. Have accumulated rich experience in technology, process and equipment research and development.

2018

In 2018, the company engaged in in-depth cooperation with the British FSG Company to overcome the technical barriers of sealable container molds. The mold technology has been improved, leading the industry.

2022

In 2022, the raw materials brand was officially established, completing the last piece of the puzzle in the overall solution for aluminum foil packaging. In response to the wave of the sharing economy, innovative business cooperation systems such as "shared factories" and "mold sharing" have been developed and designed

2010

In 2010, Shanghai Yinguang Industry Co., Ltd. was established and settled in Shanghai, beginning to independently develop equipment and molds for the aluminum foil packaging production project. The Silverengineer brand has emerged as a rising star in China's aluminum foil packaging industry.

2019

In 2019, breakthroughs were made in the new research and development direction of production equipment, and it became a member unit of the China Aluminum Association in the same year. The production capacity of equipment molds has continued to grow to a globally leading level. More than 2,000 sets of molds have been produced cumulatively.

2024

In 2024, multiple overseas cooperative and joint venture production bases will be established, with a production area exceeding 30,000 square meters. Leveraging its years of experience in mechanical manufacturing and mold research and development, combined with the channel advantages of its partners, it has expanded its sales network to more countries and regions, becoming the preferred supplier for many regional catering factories and chain restaurants.

2016

In 2016, Shenbo Packaging Products Co., Ltd. was established. The company's scale has continued to expand, and the factory building covers a large area 9,000 square meters. The company has obtained professional industry certifications such as ISO9001 and ISO14001, and has been awarded the title of "Science and Technology Enterprise of Zhejiang Province".

2021

In 2021, the company cumulatively obtained 2 invention patents, 14 utility model patents and several design patents. The company was awarded the title of "Top Ten Outstanding Enterprises in Shareholding System Reform" in Jiashan County, and its perforated small hot pot product won the "2021 China Aluminum Foil Innovation Award".

2025

In 2025, we obtained multiple invention patents, achieved breakthroughs in various machine and mold technologies, and fully upgraded our aluminum foil packaging solutions through R&D innovations.

TAKE FOIL AS OUR PROMISE, TOWARD A GREEN FUTURE

On the journey of aluminum foil packaging innovation, we have always taken "sustainability" as our core criterion. We are well aware of the responsibility carried by every piece of aluminum foil—by optimizing production processes to reduce energy consumption and emissions, we minimize the environmental impact of packaging from its source.

The infinite recyclability of aluminum foil is the foundation of our green commitment: it is 100% recyclable, and the energy consumption of its recycling process is only 5% of that required for primary aluminum production, truly achieving a closed-loop resource cycle. We do not merely manufacture packaging that protects products; we are more committed to creating solutions that safeguard the Earth. From eco-friendly lightweight design to the application of environmentally friendly inks, every step we take accumulates strength for a low-carbon future.

Standing side by side with customers and coexisting in harmony with nature, we take green packaging as a bridge to align commercial value with ecological responsibility, jointly depicting a long-term blueprint for sustainable development.
